### INSULT OF THE BRITISH

Governor Northern, of Georgia, Answers It in the World.

### LET BRITAINS LOOK TO THEIR OWN.

His Opinion of the "British Committee" Now in New York to Investigate and Denounce Southern Lynching—A Worthy Card.

New York, September 11.—The World this morning contains the following communication from Governor W. J. Northern, of Georgia, in response to a telegram sent by that paper asking his opinion of Englishmen meddling with American affairs in regard to the lynching in the south and elsewhere. An English committee is now in this city for the purpose of investigating and denouncing "southern lynching," and this fact called forth the request. Governor Northern replied:

Say to the "English committee" who have come to this country "to investigate and denounce" the lynching in the south, that I am in position to know that they have no right information from responsible sources, and that the English people have declined and refused to be present, informed about our laws and the conduct of our government. The English papers, to my knowledge, have declined time and again to publish statements made to them in the defense of the Englishmen who are now residents of the south. Under these conditions we do not want any further over-hypercritical comment upon false ideas of our government.

The people of this state are quite able to administer their own affairs, and they are doing it in full justice to the south, that I am in position to know that they have no right information from responsible sources, and that the English people have declined and refused to be present, informed about our laws and the conduct of our government. The English papers, to my knowledge, have declined time and again to publish statements made to them in the defense of the Englishmen who are now residents of the south. Under these conditions we do not want any further over-hypercritical comment upon false ideas of our government.

I send you by mail the law and record of my state on these matters, and I challenge not only the English committee on lynching in the south, but the civilized world to show a better. Why come, before investigation, to "denounce" the south, just prior to a congressional election, when we have just had these charges in Kansas, April 24, another in Ohio on the Sabbath, April 14, and when white Poles and Hungarians have recently been brutally butchered in Michigan and Pennsylvania, and negroes run out of Franklin Park, N. J., in persons? We challenge investigations by all persons who have the right to investigate these charges, but any attempt upon the part of the Englishmen, tainted by their own national crimes, to raise us for trial, must be considered as a gross impertinence.

Governor of Georgia, Governor O'Ferrill, of Virginia, writes a long card on the same strain in which Governor Northern writes.

### DISPENSARY RIOT RECALLED.

The Washington Light Infantry Injunction Discussed in U. S. Court in Baltimore.

BALTIMORE, September 11.—The South Carolina dispensary riot of last March was discussed by the United States circuit court here yesterday before Judge Coff. The matter came up in the form of an injunction suit to prevent Governor Tillman or any state officer under him from taking possession of the Washington Light Infantry company of Charleston, S. C. It will be recalled that when Governor Tillman's dispensary raiders passed the line of offensiveness drawn by the citizens of Darlington and other towns, they were attacked, a number of constables killed and the rest put to flight. When called upon the company failed to respond. Governor Tillman was highly incensed and ordered the company to surrender its arms. This order was also disobeyed and an appeal to the courts was made.

The Charleston company is represented by Theodore S. Barker and J. P. K. Bayan. Attorney General Buchanan appeared for Governor Tillman. The lawyers of the company claim that the raid was conducted by the company by special act of congress, and held in undisputed possession for over sixteen years; that arms were issued for no other purpose than to use for the company; that, therefore, the seizure of them by the governor would be illegal, as it would be a diversion of the arms to a purpose not authorized by the act of congress under which they were issued.

### WHERE HONOR RESTS

The State Officials of Mississippi Under Criminal Prosecution.

### THE LAW NOT STAYED BY AUTHORITY

Charged With Foully Photographing United States Currency in the Issue of State Warrants. The Attorneys Retained.

JACKSON, Miss., September 11.—Late last night warrants were sworn out for the arrest of the following state officers of Mississippi: J. M. Stone, governor; W. W. Stone, auditor; J. J. Evans, state treasurer. William J. Burns, special agent of the secret service bureau, who has been here for six months working on the special warrant case, made affidavit against each of the officials before United States Commissioner L. S. Mosely, charging them with violating section 5430 of the revised statutes of the United States, in issuing the two hundred thousand dollars of Mississippi special warrants, charged to be in the similitude of the United States currency. The warrant was placed in the hands of Deputy United States Marshal J. K. McNeely. Auditor Stone appeared before the commissioner and entered into a personal recognition of one thousand dollars for his appearance at the November term of the federal court, waiving examination. The warrants have not yet been served on Governor Stone, who was officially engaged, nor on State Treasurer Evans, who is out of the city. They will be served on the governor today and on the treasurer when he returns.

The affidavits contain three charges covering each of the three denominations of warrants with a photographic print of both the front and the back of same. These charges allege: "That on the 25th of June, 1894, the aforesaid special state officers, did unlawfully and feloniously, at Jackson, Miss., and in the direction of any proper officer of the United States print photographs, make and caused to be printed, photographed and made, and aided in printing, photographing and making a certain photograph print, an impress in the likeness of national bank currency of the said United States."

Judge J. A. P. Campbell, ex-chief justice of the supreme court of this state, who has been retained to represent the state, says: "I am confident that the prosecution will end in the utter discomfiture of the government. The proceedings against the state officers under a law passed by congress to protect the national issues against forgery, are entirely indefensible, and can only be accounted for by assuming that there is a total misapprehension by the official directing it."

### COLLEGES OF PHARMACY.

Pharmaceutical Association Believes That the Curriculum Should be Raised.

ASHEVILLE, N. C., September 8.—There is a feeling among the druggists in attendance at the forty-second annual convention of the American Pharmaceutical Association that some steps should be taken to regulate the colleges of pharmacy in the country. It is claimed that too many colleges turn out graduates after ten months' courses and the thinking druggists claim that this short term of study is absurd and that at least four years of study in school and drug stores is necessary to a thorough knowledge of pharmacy. This idea was introduced by C. S. N. Nollberg, of Chicago. The matter is still under discussion, but a committee will probably be appointed to try to get the colleges to agree to make the changes. The pharmacists were given an excursion to Hot Springs on special trains yesterday.

### LADIES BEG FOR ASHLAND.

Appeal to the Voters of the Kentucky District Not to Support Breckenridge.

LEXINGTON, Ky., September 10.—Eighty-six ladies, the crust of Frankfort society have signed a bitter denunciation of Breckenridge begging the people not to return him to congress. The idea is prevalent that if the district committee, tomorrow passes a rule requiring voters in the primary to swear they will support Breckenridge if he is the nominee, that Owens will withdraw from the primary and make the race against Breckenridge as an independent candidate.

### EDWIN HOOKS A DEFAULTER.

Atlanta's Business Circles Shocked by the Arrest of a Prominent Young Man.

ATLANTA, September 8.—Atlanta's business circles have been shocked by the arrest of Edwin C. Hooks, cashier of the freight department of the Seaboard Air Line railroad company. The warrant charges him with embezzlement of \$25,000 of the company's money. He was placed in jail. It is thought the defalcations will amount to a larger sum. He has been a prominent member of the best society. His close friends say he has led a fast life for six months.

### THE ALABAMA DEADLOCK.

No Nomination in the Sixth District, and Over Five Hundred Ballots Tossed.

GRIS, Ala., September 8.—Five hundred and nineteen ballots for a successor to J. H. Bankhead for the sixth congressional district, have been taken and no result. The several county delegates are true and tried democrats. It is the opinion that a new primary will be necessary to reach a nomination. It is a game of freeze-out with no end as long as the cards last.

### THE PLAN MADE PUBLIC

Don Cameron's Presidential Aspirations and Intentions.

### SENATOR JONES TO BE HIS BACKER.

The Project of Those Interested in the New Silver Party Leaks Out—The Proposed Effort to Capture the Strength of the Populists.

WASHINGTON, September 10.—The talk about the presidential aspirations of Senator Don Cameron, of Pennsylvania upon a free silver platform, which was current in political circles several weeks ago, is reviving, and in the light of certain recent events is assuming renewed significance. For Cameron really cherished the ambition to head a new faction in a presidential race, and had fixed upon the advocates of free coinage of silver to form his party. Senator Jones his Backer. A close friend of Senator John P. Jones, of Nevada, authoritatively states that Senator Jones is a backer of Mr. Cameron's presidential boom. This statement opens up a wide range of political probabilities. It is said that when Senator Jones takes his place at the head of the silver party, which he has recently joined, a position which, it is claimed, he will occupy by virtue of his prominence in national affairs, his efforts, after looking to his own senatorial interests, will be devoted to an attempt to swing the silver party into line for Don Cameron.

Politicians are agreed that the silver party in the senate is soon to become a strong factor. There are indications that reinforcements are already at hand, coming from the ranks of the republicans. Dubois, of Idaho, is hinting about following Jones' lead. Teller and Wolcott are held to the republicans by a hair, and are believed to be ready for a movement in the direction of a silver party. Then there are the electioneering which will fill the vacancies in the senate existing in the northwestern states. Every one concedes that the campaign in those states is to be conducted upon a silver platform. If all of these plans toward the creation of a silver party are successful, it can readily be seen what a power it will be in the senate.

### On a Basis of Financial Reform.

The new silver men are to proceed, they claim, upon a basis of effecting a financial reform solely, and by this means are to attract to their side a class of voters who would not join a purely silver party. It is this new silver party which Senator Cameron is said to have in view in connection with his presidential aspirations, and which it is alleged, he is laying his plans to capture.

### TRIO OF TRAGEDIES.

South Carolina the Scene of Bloody and Fatal Conspires.

WALSA WALKER, S. C., September 11.—Wade Heaton, a young white man, was stabbed to the heart and killed by Frank Parks, a young negro man, last night near Salem Baptist church, sixteen miles from this place, in Oconee county. There was an old grudge between them and Heaton raised a row with Parks at the church, and then followed him a considerable distance on the road home, kicking and cutting him and plunged his knife into Heaton's breast, cutting the third, fourth and fifth ribs and entered the heart. Heaton died instantly. Parks was arrested by Sheriff Dought and a posse and lodged in jail. On Saturday night at 11 o'clock near Westminster, Bill White, colored, was waylaid and shot by some persons supposed to be Andy Lester and Bill Koneh, two negro men who have been on bad terms with him for some time. Forty shots were put into his back and it is thought that he will die.

Frank Threft cut John and Ira Quarles in a drunken row Sunday morning on Wetstone creek in Oconee county. It is feared that there is no chance for John to recover.

### MYSTERY NO LONGER.

The Schooner Leading to the Tennessee Lynching Laid Bare.

MEMPHIS, Tenn., September 10.—The scheme leading to the Kerrville lynching is now laid bare. Before many hours elapse, it is thought every one who had anything to do with the affair, or the majority of them, will be behind the bars. Iob McCarver, son of Sheriff McCarver, is the one who gave the necessary information. He was invited to participate in the killing by H. N. Smith, one of the men now in the county jail under indictment for murder in the first degree. It was represented to McCarver that his father, the sheriff, knew all about it, and that Judge Cooper, of the criminal court was not in the dark. These false representations were made by Smith for the purpose, of course, of mixing Sheriff McCarver in the affair through his own hands would be tied if an investigation should be instituted by the authorities. The scheme failed. McCarver's examination resulted in the arrest of Jailer Wilcox for perjury and the binding over of McCarver in \$10,000 bonds to insure his remaining in the city.

### LONGSHOREMEN'S STRIKE OFF.

They Meet the Cotton Shippers on Mutual Ground and Compromise is Expected.

SAVANNAH, Ga., September 11.—The cotton shippers have acceded to the mayor's request for a joint meeting with the representatives of the labor unions and the meeting will be held this afternoon. It is expected it will result in a compromise. The ship brokers are very stiff and agreed rather reluctantly to meet the longshoremen in conference. They say that if they compromise they will be considered in a compromise. The longshoremen have any they will consider it. There was no further trouble yesterday between the union and non-union longshoremen and everything is now quiet. No attempt was made to load cotton yesterday as only a small amount had been delivered at the wharves for shipment.

C. B. Breckinridge Says the Democrats Gave Too Much in the Platform.

WASHINGTON, September 10.—Clifton R. Breckinridge, minister to Russia, is in the city. He will sail for St. Petersburg on the 20th instant. "My own state of Arkansas," said he, "has just given an exceptionally heavy democratic majority. I wish, however, that the majority had been a little lighter and the platform adopted by the state convention a little better. Two much was conceded the populists on the financial question. Better to have had a sound monetary plank than to have gained a few thousand treacherous votes."

### SHOT DEAD IN HIS CELL.

Link Waggoner, a Noted Louisiana Desperado, Killed by an Auburn Mob.

MINNEN, La., September 10.—A noted desperado of north Louisiana, and eastern Texas, Link Waggoner, was shot to death in his cell in the parish jail by a mob last night at 1 o'clock. Waggoner was a perfect type of manly beauty and as brave as a lion. For the past five years he had been a terror in that country. Innumerable murders are most ago at Waggoner, in Claiborne and brought to Homer, in Claiborne county and tried on a charge of murder. The case was not proven against him and he was sent to the jail here for safe keeping to await trial on other charges against him. While at Homer an attempt was made by a mob to kill him, but they failed, having in some unaccountable manner obtained possession of a pistol, he kept the whole mob at bay until assistance arrived. Last night the jail here was broken into by a mob of seventy-five men who shot him dead in his cell, and then dispersed. Waggoner has three brothers in Claiborne, and it is believed that they will make an attempt to avenge his death. The desperado had a good many friends in this section of the country and they may also join in a feud which would be a bloody one from the outset.

### SIX TRUE BILLS FOR MURDER.

The Participants in Tennessee's Lynching to Be Dealt the Same Drug.

MEMPHIS, Tenn., September 10.—The grand jury which had been in session all day Saturday, at 10:30 returned six true bills against M. Strickland, Jim Purley and Ed Smith for murder. They are charged with being parties to the lynching of the six negroes at Millington on the night of August 31. These three men had already been arrested on bench warrants, but the indictment created considerable excitement. Following the action of the grand jury, Judge Cooper issued a bench warrant for assistant Jailer Wilcox on a charge of perjury. Wilcox, who was in the ante-room waiting to appear before the grand jury, was arrested and jailed.

It is now reported that the mob which lynched the negroes did not consist of ten persons, and this looks bad for Richardson, the detective, who stated it consisted of fifty men. Ten men would not have made the attack unless they had an understanding with Richardson.
